PROFESSIONAL EXPERIENCE

Head of IT Services - Process Automation & Business Systems | Sunshine Vacances France | July 2025 - Present | Sousse, Tunisia

- Designed and expanded RPA workflow for invoice validation and booking reconciliation using invoices, vouchers, reservations and stay-related data.
- Automated business rules covering room rates, board types, discounts, supplements and special offers.
- Generated JSON outputs and HTML reports for audit, review and operational follow-up; improved process traceability and reliability.

Commercial & Digital Marketing Manager | Maison Salina | April 2025 - September 2025 | Sousse, Tunisia

- Developed digital marketing initiatives aligned with commercial objectives and brand positioning.
- Supported digital presence, customer-facing communication, strategic collaborations and monitoring of commercial priorities.

Digital Marketing & Automation Consultant | Confidential Client - Men's Barbershop | February 2025 - July 2025 | Noisy-le-Grand, France

- Built and managed a website with online booking and activity monitoring.
- Supported local SEO, social content, paid social, reviews, email marketing and customer communication.
- Facilitated Planity partnership to streamline booking operations and improve customer journey.

AI & Full-Stack Development Intern | VERMEG for Banking & Insurance Software | February 2025 - May 2025 | Tunis, Tunisia

- Developed e-learning platform features: enrolment, progress tracking, dashboards, event booking and real-time notifications.
- Integrated locally deployed LLaMA 3.2 assistant through Ollama with RAG retrieval for PDF and CSV knowledge.
- Contributed to microservices, secure user management, monitoring and AI security controls.

Management Controller | El Mouradi Hotels - El Mouradi Kantaoui Club | July 2024 - September 2024 | Sousse, Tunisia

- Analysed occupancy, operational cost and revenue KPIs; contributed to budgeting, variance analysis, management reporting and cost-control opportunities.

Full-Stack Development Intern | Arabsoft | June 2024 - August 2024 | Tunis, Tunisia

- Designed Angular user interface and Spring Boot REST APIs for management of books, users and borrowing operations.

Management Control Intern | El Mouradi Hotels - El Mouradi Palace | June 2023 - September 2023 | Sousse, Tunisia

- Analysed expenses, operational indicators and budget variances; supported management reporting, cost control and KPI monitoring.

SELECTED PROJECTS

RPA for Invoice Control & Booking Reconciliation - UiPath workflow for invoice and booking validation, commercial-rule automation, structured JSON and HTML audit reporting.

Data-Driven Digital Transformation for a Men's Barbershop - Website, booking journey, local SEO, social media, customer communication and activity monitoring.

AI-Ready E-Learning Platform - Angular, Spring Boot, Spring Cloud, Keycloak, Kafka, Ollama, RAG, monitoring and security tooling.
