RELEVANT EXPERIENCE

Head of IT Services - Process Automation & Business Systems | Sunshine Vacances France | Jul 2025 - Present | Sousse, Tunisia

- Designed and expanded an RPA workflow for invoice validation and reconciliation across invoices, vouchers, reservations and stay-related data.
- Automated commercial rules covering room rates, board types, discounts, supplements and special offers.
- Created structured JSON outputs and HTML reports that support audit, review, operational follow-up and traceability.

Digital Marketing & Automation Consultant | Confidential Client - Men's Barbershop | Feb 2025 - Jul 2025 | Noisy-le-Grand, France

- Built and managed a tailored website with online booking and activity monitoring.
- Supported local SEO, social media, email marketing, paid social, online reviews and customer communication.
- Facilitated Planity partnership to improve booking operations and customer touchpoints.

Commercial & Digital Marketing Manager | Maison Salina | Apr 2025 - Sep 2025 | Sousse, Tunisia

- Developed digital marketing initiatives aligned with commercial objectives, brand positioning and customer communication.
- Supported strategic collaborations, online visibility and commercial-priority monitoring.

AI & Full-Stack Development Intern | VERMEG for Banking & Insurance Software | Feb 2025 - May 2025 | Tunis, Tunisia

- Developed key learning-platform features: enrolment, progress tracking, dashboards, internal event booking and real-time notifications.
- Integrated a locally deployed LLaMA 3.2 assistant via Ollama with RAG retrieval for PDF and CSV knowledge sources.
- Contributed to secure, scalable microservices features and AI safety measures.

Management Controller | El Mouradi Hotels - El Mouradi Kantaoui Club | Jul 2024 - Sep 2024 | Sousse, Tunisia

- Analysed occupancy, operational costs and revenue-related KPIs; supported annual budgeting, variance analysis, financial reporting and cost-control opportunities.

Full-Stack Development Intern | Arabsoft | Jun 2024 - Aug 2024 | Tunis, Tunisia

- Designed responsive Angular user interface and Spring Boot REST APIs for a management application covering books, users and borrowing operations.

Management Control Intern | El Mouradi Hotels - El Mouradi Palace | Jun 2023 - Sep 2023 | Sousse, Tunisia

- Analysed expenses, operational indicators and budget variances; contributed to reporting, cost-control initiatives and KPI follow-up.

SELECTED PROJECT VALUE

RPA for Invoice Control & Booking Reconciliation - Automated business-rule validation and generated structured outputs for more repeatable operational control and audit review.

Digital Transformation for a Local Service Business - Connected website, online booking, local discovery, social visibility and customer communication.

AI-Ready E-Learning Platform - Contributed to a secure learning platform with RAG-enabled knowledge retrieval and productivity features.
