PROFESSIONAL EXPERIENCE

Head of IT Services - Process Automation & Business Systems | Sunshine Vacances France | Jul 2025 - Present | Sousse, Tunisia

- Designed and expanded a UiPath workflow for invoice validation and reconciliation across invoices, vouchers, reservations and stay-related data.
- Automated commercial rules covering room rates, board types, discounts, supplements and special offers.
- Generated structured JSON outputs and HTML reports to support audit, review and operational follow-up; adapted controls to multiple agency and hotel configurations.

Digital Marketing & Automation Consultant | Confidential Client - Men's Barbershop | Feb 2025 - Jul 2025 | Noisy-le-Grand, France

- Built and managed a tailored website with online booking and activity monitoring to improve the booking journey.
- Supported local SEO, customer communication, social content, paid social activity, online reviews and the wider digital presence.
- Facilitated a partnership with Planity to streamline booking operations and improve customer touchpoints.

AI & Full-Stack Development Intern | VERMEG for Banking & Insurance Software | Feb 2025 - May 2025 | Tunis, Tunisia

- Developed key e-learning platform features including course enrolment, progress tracking, dashboards, internal event booking and real-time notifications.
- Integrated a locally deployed LLaMA 3.2 assistant through Ollama with RAG retrieval for PDF and CSV knowledge sources.
- Contributed to secure, scalable microservices features and measures addressing prompt injection, malicious files and unsafe links.

Commercial & Digital Marketing Manager | Maison Salina | Apr 2025 - Sep 2025 | Sousse, Tunisia

- Developed digital marketing initiatives aligned with commercial objectives, brand positioning and customer-facing communication.
- Supported strategic collaborations, online visibility and the monitoring of commercial priorities and digital actions.

Management Controller | El Mouradi Hotels - El Mouradi Kantaoui Club | Jul 2024 - Sep 2024 | Sousse, Tunisia

- Analysed occupancy, operational costs and revenue-related KPIs; contributed to budget preparation, variance analysis and management reporting.
- Supported identification of cost-control opportunities across procurement, inventory and operational processes.

Full-Stack Development Intern | Arabsoft | Jun 2024 - Aug 2024 | Tunis, Tunisia

- Designed a responsive Angular interface and Spring Boot REST APIs for a books, users and borrowing-management application.

Management Control Intern | El Mouradi Hotels - El Mouradi Palace | Jun 2023 - Sep 2023 | Sousse, Tunisia

- Analysed expenses, operating indicators and budget variances; contributed to management reporting, cost-control initiatives and KPI monitoring.

SELECTED PROJECTS

RPA for Invoice Control & Booking Reconciliation - UiPath-based validation workflow connecting invoice data, bookings, vouchers, rates, discounts and supplements to structured JSON and HTML audit outputs.

Data-Driven Digital Transformation for a Men's Barbershop - Website, online booking, activity monitoring, local SEO, social initiatives and more structured customer touchpoints.

AI-Ready E-Learning Platform - Contributed to Angular and Spring Cloud features, RAG-enabled knowledge retrieval via Ollama and LLaMA 3.2, security controls and productivity tools.
